

Dual Series, Bicep, Tricep

The Gym Gear Dual Series strength line offers a comprehensive solution for fitness facilities where space, budget or both are limited. Featuring 8 dual / multi-functional strength stations, the Dual range can provide a versatile strength training area for a wide range of facilities including boutique studios, hotels and fire stations.

This space efficient, dual functional machine allows users to increase arm strength through a choice of bicep curl and tricep press exercises. The auto-adjust handgrips and adjustable seat pad make it easy for users to position themselves optimally for the exercise selected.
