

Sterling Series, Deadlift

The unique isolateral movement design ensures that each station matches the physiological movements of the human body, helping to keep users injury-free and simulating the feel of using free weights. Their compact and simple design requires minimal maintenance for commercial applications, making the Sterling range ideal for any strength training facility. The Gym Gear Sterling Series, Deadlift is a free weight trainer for training traction, squats, deadlifts, or trapeze exercises.

Technical Specifications

Rating	Commercial
Adjustments	Adjustable pads
Upholstery	Black, 60mm thick pads with industrial vinyl, thick plywood backing and 38mm foam
Tubing	2.5-3mm by 50 x 100 square tubing, electro welded to maximum integrity
Loading Capacity	300kg 660lbs
Product Weight	130kg 287lbs
Dimensions	L 167 x W 170 x H 64 cm L 66 x W 67 x H 25 inches

Key Features

Robust and heavy duty construction complete with high quality needle bearings for moving parts	•
Electrostatic powder-coated and heat cured for superior durability	•
Super smooth / quick seat height adjustment	•
Application of advanced biomechanics ensures that the equipment follows the body's physiological movement	•
Olympic weight horns fitted as standard for optimum storage capacity	•
Low maintenance due to plate loading nature	•
