

Dual Series, Leg Extension / Curl

The Gym Gear Dual Series strength line offers a comprehensive solution for fitness facilities where space, budget or both are limited. Featuring 8 dual / multi-functional strength stations, the Dual range can provide a versatile strength training area for a wide range of facilities including boutique studios, hotels and fire stations.

This space efficient, dual functional machine is designed to target the abdominals and lower back through a choice of ab crunch and hyperextension movements. The adjustable chest / back pad and dual foot rests make it easy for users to position themselves optimally for the exercise selected.
