

Dual Series, Multi Press

The Gym Gear Dual Series strength line offers a comprehensive solution for fitness facilities where space, budget or both are limited. Featuring 8 dual / multi-functional strength stations, the Dual range can provide a versatile strength training area for a wide range of facilities including boutique studios, hotels and fire stations.

This space efficient, dual functional machine allows users to isolate the chest and shoulders through a choice of bench, incline and shoulder press. The comfortable, oversized handgrips with multiple positions and simple seat / back support / pressing arm adjustments make it easy for users to position themselves optimally for the exercise selected.

Poly-foam Pads

Oversized Hand Grips
